

OCTOBER, 1973

THE PRESIDENT'S MESSAGE

Dear Friends,

It may come as something of an anticlimax to find, in this issue of the *Newsletter*, the new By-laws of our Society, as they were amended and finally approved by our last Annual Meeting in Toronto. It took us a while to record the amendments, to secure legal counsel concerning the details of wording and arrangement, to check with the Office of the Secretary of State (of Illinois, where we are registered as a not-for-profit corporation) to make certain that our new Charter does not conflict with our Articles of Incorporation, and so on.

As you know, we have all been most strongly impressed and even distracted by our own decision to abolish classes of membership in favor of an egalitarian Society, open to all and open to the development of Sections based on mutual interest. Although that is an important change, we must now give our attention to other changes, not only of equal importance, but of greater practical consequence for the immediate future.

The first of these changes is the absence, in our new Charter, of any provision for an Annual Meeting of the membership for the purpose of conducting business. The President may, at his discretion, call a Special Meeting of the members to deal with specified items of business, and 10% of the total membership of the Society can require his doing so by their petition, but such meetings will no longer be held as a matter of routine.

In making this change, we have recognized the often perfunctory character of large meetings of the total membership, and we have moved from the ancient ideal of the "Athenian Assembly" to the parliamentary model of a "Delegate Assembly" of representatives with a fiduciary trust. The other important change concerns the manner in which these representative Delegates to our new governing body are to be selected.

Whereas our present Board of Directors was chosen by an electoral process in which the total membership was uniformly involved (or, as it most often seemed, uninvolved), our new Delegate Assembly will have its members selected from five regions, in each of which a separate election of representative Delegates will be held.

ON CURRENCY AND ANTIQUITY

Joseph Meiers, Historian for ASAP, urges each local chapter to appoint a historian to keep a written record of what's happening in your group and when, from the time of its inception. With rapid turnover of members and officers, a group's beginnings can sometimes be "lost in antiquity" before it reaches toddlerhood.

THE PRESIDENT'S MESSAGE (cont. from p. 1)

The hope is that by this process we will have combined in one body the virtues of representation which, in the national government of the United States, is supposed to be achieved with a Senate (representing the interests of separated geographic regions) and a House (representing the interests of an unequally distributed population). The ASAP, in other words, has decided that it is too big for direct democracy (as a regular working arrangement) but not yet so big as to require a bicameral parliament. In future years we may reconsider all of this. For now, in the next few issues of the *Newsletter*, I will share with you my appraisal of our current obligations, which will also be spelled out more clearly for all of us in the Semi-Annual Meeting of the Board of Directors/Interim Delegate Assembly to be held in Washington, D. C., on the first weekend in November.

If you have read this far, through this rather tedious recital on the subject of Constitutional Law, I hope that you have not had to do so at the expense of your good humor. There should be some small consolation for every reader in the thought of how much more tedious it must have been to have had to write it!

Cordially,

Robert L. Powers
President

ADLERIAN PERSPECTIVE ON POWER

The seductive lure of power is the topic, and the place is Washington, D.C. No, it's not a continuation of the Watergate hearings or a new grand jury investigation, just the Symposium on The Psychology of Power sponsored by the Individual Psychology Association of Greater Washington (IPA, Inc., Box 11, Garrett Park, Md. 20766), in conjunction with ASAP's Semi-Annual Meeting of the Board of Directors (acting Delegate Assembly). The program on Saturday, Nov. 3 at the Shoreham-Americana features Kurt Adler, Tom Allen, Jim Croake, Bronia Grunwald, Gloria Lane, Bill and Miriam Pew, M. Sonstegard, Adaline Starr, and Ann Tuites, among others. The luncheon Presidential Address by Robert Powers will cover "The Community of Power: A New Look at Persons and Politics."

On the following day, Sunday, Nov. 4, ASAP will offer Training Workshops in Life Style (Leo Gold, Dorothy Peven); Intensive Supervision of Clinical Cases (Robert Powers); Seminar on Childhood, Pre-Adolescence and Adolescence (Frank Walton, William McKelvie); Encouragement Lab--Action Therapy Workshop (W.E. O'Connell); and Introduction to Adlerian Psychology: Fundamentals (Robin Gushurst). (Write to IPA, Inc., address above, for registration information.)

Erratum: We erred last month (p. 3) in listing Frank Walton as having been reelected to the ASAP Board of Directors. Frank was newly elected to the Board in May of this year.

Article IV of the new ASAP By-laws refers to the establishment of geographic regions from which the Delegate Assembly will be elected. The Executive Committee of the Society was appointed by the President on May 27, 1973 to serve as the Election Committee, and to draw up the procedures to establish regions and to elect delegates. The Committee met on September 21-22 in Chicago. The Committee's recommendations are:

1. Ten members of the Delegate Assembly shall be elected each year, beginning in May, 1974 until the full complement of 30 is attained in May, 1976; i.e., in May, 1974 the term of office of five members of the present Board of Directors will expire. Ten delegates will be elected who, with the 10 remaining Board members, will provide an acting Delegate Assembly of 20. In 1975 and 1976, as the terms of five more members of the Board expire, the same process will occur. In 1976 the 30-member Delegate Assembly will be operational.

2. Following a dual formula of natural affinity and membership proportion, five geographic regions are proposed, each of which will elect two delegates each year.

3. The geographic regions are:

Southeast--Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia.

Northeast--Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Ontario and Eastern Canadian Provinces, Vermont.

Middle-Atlantic--Delaware, District of Columbia, Maryland, Ohio, Pennsylvania, Rhode Island, West Virginia.

Mid-West--Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Wisconsin.

Far-West--Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Western Canadian Provinces, Wyoming.

4. The procedures for nomination and election will be developed.

SPRING IN NEW ORLEANS?

Manford Sonstegard, Chairman of the ASAP Exhibit Committee, reports that ASAP will again this year prepare an exhibit for the American Personnel and Guidance Association Convention in New Orleans April 8-12. ASAP has been assigned booth number 609, which is directly opposite the exhibitors' lounge and close to the sidewalk cafe. All ASAP members attending the convention in New Orleans who wish to help at the ASAP exhibit should make their availability known to Sonstegard (West Virginia University, 504 Allen Hall, Morgantown, W. Va. 26506), who reports the need for "lots of people to help us." Members of ASAP who have suggestions concerning the type of exhibit should make their suggestions and ideas known to the Chairman or to members of the Exhibit Committee, Bill McKelvie and Frank Walton.

NEWSNOTES:

[*Editor's Note:* Since the *ASAP Newsletter* is primarily an in-house publication, some members feel that, for the most part, titles and degrees should be dropped in the news items. Moreover, the democratic nature of the Society is best served by these omissions. Others feel that they are an identifying mark and should be preserved; some could not care less either way. If you are among those who care one way or the other, please let us know. In the November issue, we will carry a "Letters to the Editor" column on this and other subjects you may wish to share with the readers. Let's hear from you.]

IN MEMORIAM--DR. ERNST PAPANEK

Dr. Ernst Papanek, a founding member of ASAP and one who devoted his life to the betterment of humanity, died on August 5, 1973. Leo Gold speaks for all of us in this tribute to him:

A TRIBUTE TO ERNST PAPANEK

Ernst Papanek died in Vienna this past August and the Adlerian movement has indeed lost a most beautiful spirit. He was a man so rich in the meaning of life that it is hard to conceive of the fact that his warmth, his humor, his humanity, erudition and simplicity will no longer be amongst us. It is remarkable how rich a life he lead privately, professionally, and politically and the number of lives he touched and changed for the better.

A very moving memorial service was held at the Community Church in New York attended by many people who had known and admired him. What was most clear that day was his ability to move others, to reach into their innermost selves and to leave them with a sense of encouragement and promise. I can think of very few who so fully emulated and carried out in so natural a fashion Adler's concept of Social Interest as did Ernst. The world will seem somehow lonelier without him.
